Start date: 02-10-2017

End date: 01-10-2019

About the project

The project INSERT is co-funded by the Erasmus+ programme of the European Union and aims at extending and developing social entrepreneurship competences of educators and professionals working in organisations, providing support to migrant populations, in order to assist them in the long-run in promoting social entrepreneurship to low-skilled and low-qualified adults with a migrant background, as an alternative pathway for their self-sustainability.

The development of these social entrepreneurship competences will be achieved through an extensive ToT programme, provided through the means of an e-learning tool and complementary classroom training. The ultimate goal is to develop an informal network of "social learning e-centres" for educators/trainers/professionals working with migrant adults.
